Bringing your loved one into our care

£395

- We understand that you need to know that your loved one is being looked after from the moment they are brought into our care. We commit that our dedicated team of trained colleagues will not only provide the best care for your loved one, but will ensure they are treated with dignity and respect at all times.
- We take careful consideration of all faiths, traditions and requests made, such as how you would like your loved one to be dressed and what personal effects you may wish to place with them during their time in our care.
- We have Remembrance Rooms located within our funeral homes where you may wish to come and visit them for a while. This is a very personal choice which some people choose not to do. However, our colleagues will support you and answer any questions you might have if you are unsure on what you would like to do.

Funeral arrangement support

£970

- We are able to provide a 24 hour service for the assistance and support of our families up to the time of the funeral and an advisory service thereafter. Our colleagues will provide a professional and compassionate service, helping you with your funeral arrangements and organising it all for you.
- We will listen to you, guide you and offer you choice when it comes to services we can provide. Depending on your requirements, we can co-ordinate floral tributes, masonry services, order of service, newspaper notices, a complimentary online obituary and any other services you may choose. We will liaise with third parties on your behalf to ensure you can focus on your loved one. However, if you do choose to make certain bookings yourself, we can support you with this by ensuring that all of your expectations are met to create a wonderful service.
- We understand how much there is to do when somebody passes away. We make things simple for you by paying fees to third parties on your behalf, leaving you with only one account to settle.
