The co-operative travel
at Central England Co-operative

There are some important changes to the way you can collect Share of the Profits points through Co-operative Travel branches.

As of Tuesday 13th December you will only be able to collect and redeem your membership Share of the Profits points from Central England Co-operative Travel branches, and not from any other Co-operative Travel branches that you may currently use.

The reason for this change is due to the current joint venture between The Co-operative Travel and Thomas Cook coming to an end, and the joint venture will no longer offer Share of the Profits points.

You can still collect Share of the Profits points by booking holiday arrangements through the travel consultants at one of our Central England Co-operative Travel branches.

If our branches are not conveniently located for you, all our travel consultants are very happy to deal with your travel and holiday arrangements over the telephone so you can book everything from the comfort of your own home, and their contact details are shown overleaf.

If you currently book holidays with us directly through one of our Central England branches nothing will change. This will not affect your Share of the Profits accrued or redeemed in our food stores, funeral services, florists or opticians.

We look forward to supporting you with future arrangements and a full list of Central England Co-operative Travel branches are shown on the right hand side. These branches can take bookings either in-person, by email or by telephone so please contact them for further details.
